

## TODAY, SAYS THE WEATHER MAN

Wednesday Is Ideal Autumn  
Day in Zion: The Meteor-  
ological Record.

A. H. Thilsson, the new section director of Salt Lake City's weather bureau, reports a big chunk of beautiful fall weather with him when he came here to take Dr. Hyatt's place as head of the station.

Wednesday was simply ideal, and the forecast for the future is equally bright. It is probable that this season will continue to enjoy warm, sunny, beautiful weather for some time, as the threatening "low" area is away up the Canadian line, and from present indications it is not likely to move down the coast.

Wednesday's record at the local office of the weather bureau for the twenty-four hours ending at 6 p. m. was as follows: Temperature at 6 p. m., 71 degrees; minimum temperature, 58 degrees; maximum temperature, 81 degrees; mean temperature, 61 degrees, which is 1 degree below normal. Total deficiency of temperature since first of the month, 62 degrees. Total excess of temperature since January 1, 24 degrees. Total precipitation since the first of the month, 1.14 inches, which is .19 of an inch above normal. Total excess of precipitation since January 1, 2.80 inches. Relative humidity at 6 p. m., 50 per cent.

### POLICE COURT CASES

In Judge Bowman's court Wednesday afternoon the case of the State of Utah against J. Gallagher was set for hearing on October 28. Gallagher, who is the proprietor of the Saddle Creek restaurant, is charged with selling to H. C. Smith milk which was below the standard in required amounts of milk solids.

The usual number of persons who had drunk too freely were lined up in court and were given the usual sentence, after the court had learned that they were either single or married. In the event that they were married, the court ordered them to be discharged after having been given lectures. In the event they were single, they were sent to the reformatory for a period on the good qualities of a temperate life.

Contrary to the usual method of procedure, Jack Carney, who was arrested and charged with vagrancy, refused to plead guilty when addressed by the court and stated that he was ready to go to jail. Patrolman Duxander, who made the arrest, was called to the stand and testified that he had arrested the man after a number of persons on Second south street had complained that he was drinking. Attorney P. J. Daily, who is acting for Assistant City Attorney A. Rogers while the latter is on his vacation, asked the court to order the man released. The court, however, ordered the man to remain in jail until he had secured money from the complaining witnesses. When the witnesses appeared, the court ordered the man released. The court, however, ordered the man to remain in jail until he had secured money from the complaining witnesses. When the witnesses appeared, the court ordered the man released.

Bert F. Bellman and Frank Crompton, charged with trespass, were discharged. They told the court that they had no money and were sleeping in a moving van when arrested.

R. A. Smith, who on Monday appeared in the court and pleaded not guilty to a charge of forgery, through his attorney changed his plea on Wednesday to that of guilty to the charge of obtaining money under false pretenses, after the attorney had been asked to agree to withdraw the other charge. To the latter Smith was sentenced to six months in the county jail.

All the applicants were duly declared bankrupt and given the privilege of the law. There were no less than ten petitions passed upon Wednesday.

John H. Loveloy, who conducts the saloon and cafe in the judge building, states that his liabilities amount to \$6065.66 and his assets to \$250, with \$129 excepted. J. H. Loveloy filed with his application a petition of impecuniosity.

Mr. Hirth will be able to be at his desk regularly from now on, although not feeling as well as he might, and anticipates a rush in building permits. ## 5 REASONS FOR FALL HOUSE PAINTING

1. THE WOOD IS THOROUGHLY DRY. Summer's sun has removed all moisture.  
2. PAINT PENETRATES DEEPER INTO DRY WOOD. The deeper it gets the better it holds.  
3. FALL WEATHER IS WARM, DRY AND DEPENDABLE. Little danger of cold, damp, rainy days which endanger the durability of paint.

4. WET WEATHER DECAYS AND DESTROYS UNPROTECTED SURFACES. Lack of paint means unsightly and less valuable property.

5. FALL PAINTING KEEPS OUT WINTER MOISTURE. The greatest enemy to the life and beauty of all structures.

Ask us about ACME QUALITY HOUSE PAINT. It insures the greatest protection and beauty at the least cost per year of service. Questions cheerfully answered.
